GV50 Positioning

BenQ GV50 is FHD Laser Portable Projector with built-in 2.1 Channel Speakers, 135° projection, Google TV and 92% Rec 709 Color Accuracy (Cinematic Color) for the content streaming lovers who are looking for an immersive Audio-Visual experience, anytime, anywhere.

Compared to other Portable Projectors, GV50 is embedded with Google TV that gives the users a built-in Google Play access and a one-touch access to Google Assistant for all their entertainment needs.

BenQ GV50 comes with inbuilt battery back up and USB -C port for charging.

FHD Laser Projector with 92% Rec.709 Color Gamut

BenQ

- GV50 can deliver FHD resolution with wider color gamut 92% Rec.709.
- Laser light source has higher brightness & contrast than the traditional Lamp, which help to delivers better Color performance.
- FHD resolution delivers more vivid & sharp picture contents.

92% Rec.709

Google TV

- **User Interface** : Google TV offers a more modern and streamlined user interface compared to the traditional Android TV interface. It emphasizes content discovery through personalized recommendations and a user-friendly layout that integrates various streaming services more seamlessly.
- **Google Assistant Integration**: While both platforms support Google Assistant, Google TV enhances this integration by allowing users to control smart home devices, search for content, and get answers to queries using voice commands directly through the interface.
- **Cross-Platform Compatibility**: Google TV extends beyond the TV itself, as it is integrated into other Google services and devices, allowing for a more cohesive ecosystem experience if you use other Google products like Nest devices or Google Home.
- **Ease of Use**: The interface of Google TV is designed to be more intuitive and user-friendly, which can make navigating and finding content simpler, especially for less tech-savvy users.

Key Features

GV50 is powered by CinematicColor and achieves 92% Rec. 709 Color Gamut Coverage with more natural & accurate color performance

GV50 is the Portable Projector with Built-in 2.1 channel (4Wx2 + 10W woofer) speakers by treVolo with strong sound and powerful bass.

Solid audio performance of the 2.1 Channel Speaker elevates mundane movie-watching to five-star film events.

Easy To Carry: GV50's handy leather strap and a trendy carrying case makes it easy to take it wherever the party goes.

Hassle-Free Set Up

Auto Keystone

Obstacle Avoidance

BenQ

Adjust screen with
any obstacle on the
wall

Clearly fix identifiable
edges boundary
obstacles

3D Keystone Correction along with Auto screen fit

Advantage:

3D Keystone Correction: Allows to adjust the geometry of the projected image to make it fully rectangular by Rotating the angle of the projected light.

Auto screen fit

Auto Focus

Benefits:

Simple and Easy Screen setup without wasting much time.

Flexibility to place projector & create a perfect screen from different angle and positions

Benefits Use case:

Home scenario, where there is an obstacle in the clear line of projection.

The projector can be placed at a different angle & still can produce a perfect Rectangular screen of 30" ~ 100".

Entertainment Hub

Google TV with Netflix and 5000+ APPs available in Google Play Store.

GV50 provides Casting Support:
Chromecast as well as
AirPlay
